

LabEx UnivEarthS : Scientific Committee 2019

jeudi 7 novembre 2019

Frontier project: "MYSTHIC: MobilitY versus SStorage of Himalayan Carbon" F. Girault (09:15 - 09:35)

Frontier project: "At the heart of our galaxy with multi-messenger astronomy: turning back the cosmic clock on SgrA* activity" A. Lemière (09:35 - 09:55)

Frontier project: "Probing our gravitational environment: geographical and fundamental physics applications" J. Bergé (09:55 - 10:15)

Frontier project: "Multidisciplinary investigation of the deep Earth" J. Badro (10:15 - 10:35)

Frontier project: "Multi-messenger (NeUtrino/Cosmic Ray/gamma-ray) Astronomy at the highest energy frontier (NUCRA)" A. Neronov (11:10 - 11:30)

Frontier project: "Dark sectors of the Universe" Y. Giraud-Héraud (11:30 - 11:50)

Frontier project: "The Cosmic-Ray InterStellar-Medium Interplay (CRISMI)" I. Grenier (11:50 - 12:10)
