

LabEx UnivEarthS : Scientific Committee 2019

jeudi 7 novembre 2019

Interface project: "Multi-messenger Transient Universe" S. Corbel (12:10 - 12:30)

Interface project: "Gamma-ray Cosmology in the CTA era" S. Pita (12:30 - 12:50)

Interface project: "Numerical and experimental study of hot and warm rocky exoplanet atmospheres' in preparation of JWST observations (EXOATMOS)" S. Charnoz (14:00 - 14:20)

Interface project: "Multi-messenger Astrophysics with Gamma-Ray Bursts" C. Lachaud (14:20 - 14:40)

Interface project: "Binary rEvolution: from binaries to gravitational waves" S. Chaty (14:40 - 15:00)

Interface project: "Prompt Gravity Anomalies and Seismic/Newtonian Noise" M. Barsuglia (15:00 - 15:20)

Interface project: "ARGOS+: Astroparticle Research, Geology and Oceanography Studies" V. Van Elewyck (15:20 - 15:40)
