

## Virtualisation and academic clouds

*vendredi 18 octobre 2019 09:00 (20 minutes)*

Virtualisation is not only interesting for small and medium size projects, but also in general a way to preserve and share workflows. Benefits and drawback of academic clouds, such as the ones provided through France Grilles.

**Orateur:** BRETON, Vincent (CNRS-IN2P3)

**Classification de Session:** Overall infrastructure needs / development
