ESCAPE position statement

jeudi 27 février 2020 09:25 (20 minutes)

The ESCAPE Executive Board has released a Position Statement about EOSC.

This document summarizes the current views and expectations of astronomy and particle physics partners in ESCAPE about EOSC. It is written keeping in mind the various exchanges that are taking place with the EOSC secretariat, governance and working groups. It is also written to follow up the EC chaired EOSC stakeholders' concertation events aiming at gathering the scientific views on the implementation of EOSC.

The ESCAPE Test Science Projects concept could be key in supporting the involvement of research community in Open Science and in the EOSC implementation. This view is developed and discussed.

Orateur: LAMANNA, Giovanni (LAPP - IN2P3/CNRS)
