

## ESCAPE SUMMER SCHOOL

ID de Contribution: 119

Type: Non spécifié

## Environment setup

*lundi 7 juin 2021 14:00 (30 minutes)*

The installation of the ESCAPE school environment will be described and implemented from scratch in this hands-on session. We will go through the installation of conda - an open source package management system - and the dependencies needed to follow the lectures of the summer school.

**Orateur:** GARCIA GARCIA, Enrique

**Classification de Session:** Coding environment, tools, good code practice for collaborative and continuous developments
