

**Welcome (at last!) to the LPC !**

We are happy to have you around, and hope that the Terascale meeting will be a successful one

- many exciting talks
- being together and discussing again

For those not able to join us, keep tuned via Zoom (and chat!)

Local organisers:

Jean, Romáin, Samuel, Andreas,  
Emanuelle, Jonathan & Ana

# Terascale @ LPC 2021

---

## Additional Information

**Presentations:** Speakers, please upload your slides in PDF format to the Indico webpage  
(personal laptops not possible for live talks)

**Remote attendants** - do not hesitate to "Zoom chat" the session Chairs for any questions or comments; raise your hand or just intervene at the end of the presentation!

**Coffee & Tea breaks:** Room 9107 - across the central court "aquarium", at the end of 1st floor corridor (to the right)  
Please respect sanitary measures, and profit from the "nice" weather as much as possible!

**Lunch:** Also in Room 9107 (vegetarian options available)

**Dinner:** "Les grandes tables de la comédie" (stop "*Maison de la Culture*" for tram A, bus lines 8 and 13)

---

# Terascale @ LPC 2021

## COVID 19 protocol

Participation restricted to  
those in possession of  
European Green Pass

Face masks compulsory during the  
entire meeting  
(available if needed)

**Respect general sanitary safety  
measures:**

- cough/sneeze into the crook of  
your elbow;
- use disposable tissues;
- disinfect/wash hands regularly

Regular **disinfection** of shared  
equipment

Let us know if we can help...  
Thank you for your collaboration!  
Jean, Romain, Samuel, Andreas,  
Emanuelle, Jonathan & Ana

# IRN Terascale - some news and discussion

This meeting - **special joint session** with  
**GdR Appel** (Accélérateurs Plasma Pompés par Laser)  
<https://gdr-appel.fr/>

Next meeting: hosted by colleagues from Bonn  
@ **Physikalisches Institut der Universität Bonn**

**28 - 30**  
**March 2022**

Brief reminders:

**Terascale meetings**, there is the possibility of including **blocks (dedicated rooms)** for selected hands-on and topical/informal discussion  
⇒ **just let us know!**

**Terascale - meeting point of particle & astroparticle physics communities** (exp, ph, th, ...); we can **organise "Round Tables"** dedicated to discussing topics of concern for the community ⇒ **contact us!**

The IRN Terascale is a very good window to showcase the work of young scientists in an informal atmosphere, but senior contributions are also very welcome in the sessions => **get in touch with the conveners!**

For the Terascale  
Marie-Hélène, Ana with Tilman
