

# Paris Winter Workshop: The Infrared in QFT

## mardi 3 mars 2020

**Tuesday: Tuesday (09:30 - 18:30)**

| time  | [id] title  | presenter        |
|-------|---|------------------|
| 09:30 | [8] Expansion by regions: a review                            | SMIRNOV, Volodya |
| 10:30 | Coffee and Tea Break  |                  |
| 11:00 | [9] Complex multi-loop results via finite-field techniques    | PERARO, Tiziano  |
| 12:00 | Lunch   |                  |
| 14:00 | [10] Event shapes with spinning targets                       | ZHIBOEDOV, Sasha |
| 15:00 | [11] Guided Discussion  |                  |
| 16:00 | Coffee and Tea Break  |                  |
| 16:30 | [12] Correlation functions and event shapes in gauge theories | SOKATCHEV, Emeri |
| 17:30 | [13] Free Discussion  |                  |
