

XeSAT2022 - International Workshop on Applications of Noble Gas Xenon to Science and Technology

mardi 24 mai 2022

R&D session 1, Chair Luis Fernandes (10:30 - 11:00)

time	[id] title	presenter
10:30	[41] Invited: Xenoscope — a full-scale vertical demonstrator for the DARWIN observatory, Laura Baudis	BAUDIS, Laura

R&D session 1, Chair Luis Fernandes (11:20 - 12:20)

time	[id] title	presenter
11:20	[42] Invited: Air Liquide, how rare gases challenge us and allows us to open a new gate on Big Science, Amandine Marc and Luc Gaffet	GAFFET, Luc
11:50	[43] SiPM readout of Xenoscope, a full-scale DARWIN vertical demonstrator, Ricardo Peres	PERES, Ricardo
12:05	[44] The development of hermetic quartz chamber for future low background liquid xenon detectors, Masatoshi Kobayashi	KOBAYASHI, Masatoshi
