

Session Program

14–18 déc. 2020

Polarisation measurements in ee, ep, pp and heavy-ion collisions

Angular momentum and polarisation: vorticity in heavy-ion collisions

IJCLab
Laboratoire de Physique des 2 infinis Irène Joliot-Curie – IJCLab <https://www.ijclab.in2p3.fr/en/home/>

jeu. 17 décembre

14:00

Angular momentum and polarisation: vorticity in heavy-ion collisions

Session | **Site:** IJCLab, Laboratoire de Physique des 2 infinis Irène Joliot-Curie – IJCLab <https://www.ijclab.in2p3.fr/en/home/> | **Convener:** Francesco Becattini

14:00 – 14:25 Introduction and experimental overview

Orateur

Mike Lisa

14:25 – 14:45 Prospects on vorticity theory

Orateur

Enrico Speranza

14:45 – 16:00 Discussion round: future directions at RHIC and LHC

Orateurs

Enrico Speranza, Michael Winn, and others

16:00
