<— Link to a wiki containing all useful information

The wiki will be updated as often as necessary

<— Mandatory logos

Welcome to the Enigmass Labex page

It gathers useful information about the Labex: its scientific objectives, its labs, its actions.

- Enigmass, what is it ? ([Labex](#), the labs: [LAPP](#), [LAPTh](#), [LPSC](#))
- What do we do ? ([Working Groups](#), [Organisation](#))
- How to join us in our labs ? ([PhD and postdoc positions](#), [Visiting scientists](#))
- What are the actions beyond the labs ? ([Winter and summer schools](#), [Outreach](#))

Calendar ([Meetings and calls](#))

Try it

and if you have
suggestion, find an
error, a missing or
wrong information,

please tell me !

Ongoing work

a video to promote the LabEx

—> this “investissement d’avenir” belongs to citizens
and we want to present what is done in the Enigmass context

— different from already available, very useful and well done videos —

Hope to make some buzz and be seen by many people, beyond our traditional public
+ long term use (“fêtes de la science”, high-school interns ...)

It is not the goal but useful and pertinent deadline:
the video will be ready for the IN2P3 birthday (June 9-10 @ LAPP, LPSC)

No more information will be provided, see you in June!

Outreach

Lower budget than for Enigmass1 but nevertheless quite comfortable
Available budget for the 5 years: 40 k€

No specific call but answer to requests as they arise

Typically:

- 0,5 to 1 k€ for a standard public event
- 1 to 3 k€ for an original outreach project
- 3 to 10 k€ for an original outreach production which will benefit to both sites

Answers within a few days or a few weeks, depending on the amount and subject

Remaining available budget will be indicated on the wiki page

External experts may be solicited for major proposals

Des concours ouverts à tous

Concours expérimentaux, littéraires, artistiques et philosophiques
ouverts aux élèves de primaire jusqu'aux classes préparatoires.
Date limite pour s'inscrire : 20 décembre 2020.

Une soirée festive

Le 10 mars 2021, au Grand Rex à Paris et dans de nombreuses autres
villes de France. Au programme : conférences, visites virtuelles de sites
ou laboratoires emblématiques, tables rondes et jeux quizz !
Entrée gratuite - sur inscription

Next event that should be
supported by the LabEx

Annecy and Grenoble
will participate to
this national event

Valorization

... not enough budget in Enigmamass2 for a CDD

but, through the Outreach channel, **possibility to get support for promotion**

Thank you !
