frontier

GDR-InF

Annual workshop 2020

(28 Septembre - 16 October)

Aoife Bharucha & Francesco Polci

<http://gdrintensityfrontier.in2p3.fr/>

Three weeks of...

- Interesting seminars from invited speakers
- High quality talks from our young researchers
- Discussions
- Common work and interactions

A huge “thank you” to the speakers, the conveners, the coordinator of the projects and discussions and all participants!

Next GDR-InF events to come:

2020

- **b-baryon fest**, 5th-6th November, 2020 (online)
- **Polarisation measurements in ee ep, pp and heavy-ions collisions** , IJCLab Paris, 14th-18th December, 2020

2021

- **Axions++** : Axions And Other Light Particles, LPSC Grenoble
- Lectures on **Group Theory, EFT Part II**,....
- **AGENDA 2021** (send your ideas!)

Keep an eye on <http://qdrintensityfrontier.in2p3.fr/>

(you will find links to the indico agendas, registration forms etc...)

Keep in touch!

JOIN, IF YOU HAVEN'T YET! Already 53 subscribers.

Exchange news and informations in the “town square”, for example:

- your thesis defense;
- your latest article published;
- a recent article that you find interesting for the community;
- a position opening in your team;

whatever might be of interest for the GDR-InF members!

Use specific channels for dedicated discussions (ex: hands-on projects channels), create new ones when needed.

[GDR-InF mailing list sign-up link](#)

If in doubt, both links can be found on the GDR-InF website!!

We need your feedback

Please write to us (Francesco, Aoife, your favourite convener) with your comments and criticism, positive and negative, about this year workshop.

Particular things to consider:

- Hands-on projects

- Invited seminars

- Young scientists talks (joint?)

It will be useful for improving next year events.

Do it now: you might forget later!

Farewell

Virtual meetings are not as warm as real ones.

In particular, we regret we could not chat in person with the new students and postdocs.

We hope to see you all in person, GDR-InF veterans and newcomers, sometimes next year!

Meanwhile...

take care and big hugs to everyone!
