## Integrating services with the ESCAPE AAI

*mardi 19 janvier 2021 13:00 (1h 15m)*

Introduction to integration patterns with the ESCAPE AAI:

- OIDC/OAuth recap
- OAuth/OIDC Authorization flows (aka grant types): which one should I use for my application?
- What's the difference between a client and a protected resource? Which type of client should I use for my application?
- Registering a client in IAM
- Anatomy of an IAM token
- Offline access: i.e., getting long running applications tokens when they need them
- Apache integration example
- CLI integration example
- X.509 Authentication support in IAM
- Q & A
