

Colloque national Action Dark Energy 2021 - 5ème édition

mercredi 13 octobre 2021

Contributions: Planck constraints on the tensor-to-scalar ratio - Amphithéâtre Hermite (11:00 - 11:30)

-Présidents de session: Matthieu Tristram

time	[id] title	presenter
11:00	[46] Planck constraints on the tensor-to-scalar ratio	TRISTRAM, Matthieu

Contributions - Amphithéâtre Hermite (15:10 - 16:30)

time	[id] title	presenter
15:10	[26] Scale-dependence in DHOST inflation	LAZANU, Andrei
15:30	[27] Flat rotation curves, MOND-like behavior, and CMB spectrum in the Dirac-Milne universe	CHARDIN, Gabriel
15:50	[28] Mesure des fluctuations du monopole du fond diffus cosmologique	MURRAY, Calum
16:10	[29] Y-a-t-il une tension avec les amas?	BLANCHARD, Alain

Contributions: Contributions 3 - Amphithéâtre Hermite (17:40 - 18:00)

time	[id] title	presenter
17:40	[39] Weak lensing cluster masses and mass-richness relation in DESC DC2 simulations	PAYERNE, Constantin

jeudi 14 octobre 2021

Contributions: Contributions TBD - Amphithéâtre Hermite (12:00 - 12:30)

time	[id] title	presenter
12:00	[33] (g-2) of the muon and screened modified gravity	BRAX, Philippe
12:15	[34] Dark Gravity confronted with SN, BAO and the CMB	HENRY-COUANNIER, Frederic
