

# Data Flow : Short Software Status

N. Dosme and Data Flow Team

**No major modification or upgrade for the Data Flow software**

**Only support/help in case of problems during the experiments or when a new hardware has been installed**

## Narval Data Producers

- Link between Legnaro DAQ and AGATA DAQ
- Monique TAURIGNA starts working on UDP for Phase 2 electronics

## Virtual Machine for Run Control

- Provide an AGATA VM to Legnaro with tools used at GANIL inside...

## Topology Manager

- Phase 2 electronics integration
  - Data Base model update
  - Narval topology update
  - Further upgrades/improvements can be performed => we need feedbacks from users
- Souhir Elloumi (will arrive on 2021/04/01)
