

# Workshop on nuclear Parton Distribution Functions

## lundi 22 février 2010

**Heavy flavour - Auditorium M. Vivargent (14:15 - 18:05)**

time	[id] title	presenter
14:15	[8] "Quarkonia as tools ?" : further experimental needs	Dr LANSBERG, Jean-Philippe
15:05	[2] Cold Nuclear Matter effects on J/psi production with extrinsic transverse momentum	Dr RAKOTOZAFINDRABE, Andry
15:35	[13] Gluon shadowing and J/psi suppression in p A collisions : uncertainties and constraints	ARLEO, François
16:05	break	
16:35	[12] The role of parton shadowing in the comparison of p-A and A-A results on J/psi suppression at SPS energies	Dr SCOMPARIN, Enrico
17:05	[7] Upsilon production in dAu collisions at RHIC	Dr MATAGNE, Nicolas
17:35	[4] Direct Photon Production In Association With A Heavy Quark Jet at Hadron and Ion Colliders	Dr STAVREVA, Tzvetalina
