9:00 AM

Doctorants et postdocsSession | Location: <https://ijclab.zoom.us/j/92118967164?pwd=TEVCQlclc4bmY4eVBzQldCaEc3SDNEQT09>**9:00 – 9:12 AM** A two-loop study into a background gauge invariant Gribov-Zwanziger type action**Speaker**

Duijfe Van Egmond

9:15 – 9:27 AM Jets in hot and dense QCD**Speaker**

Victor Vila

9:30 – 9:42 AM Heavy flavor hadrons produced in jets with the ALICE experiment**Speaker**

Yitao Wu

9:45 – 9:57 AM Dynamically groomed jet radius as a probe of color coherence in heavy-ion collisions**Speaker**

Alba Soto Ontoso

10:00 – 10:12 AM**Glueballs exploration using J/Ψ photoproduction and development of hybrid gaseous detectors****Speaker**

Aude Glaenger

10:15 – 10:27 AM $\Psi(2S)$: Measuring the excited cousin of J/Ψ **Speaker**

Kunal Garg

10:30 – 10:45 AM Pause café**10:45 – 10:57 AM** Study of J/Ψ in ultra peripheral collision and MFT commissioning**Speaker**

Lucrezia Camilla Migliorin

11:00 – 11:12 AM Cold & Dense QCD: RGOPT improvement at next-to-next-to-leading order**Speaker**

Loïc Fernandez

11:15 – 11:27 AM Probing the system-size dependence of parton energy loss at RHIC**Speaker**

Audrey Francisco

11:30 – 11:42 AM**Event activity dependence of quarkonium production and polarization in small collision systems****Speaker**

Kazuhiro Watanabe

12:00 PM

11:45 - 11:57 AM

Study of J/Psi v2 in pp collisions

Speaker

Sébastien Perrin
