Particle physics ESFRI research Infrastructures

LAPP
Laboratoire d'Annecy de Physique des Particules

- Dominique BOUTIGNY
- Sabine ELLES
- Marie PATUREL

WP5 Rubin Science Platform

ESCAPE meeting - March 15, 2021

WP5 Rubin Science Platform

- Rubin Science Platform with our own configuration :
 - LSST Github Credentials
 - Local datasets from Subaru-HSC (Relevé optique)
 - Catalogs and images are accessible with Rubin software stack
- DNS issues
 - At the moment the platform is installed on a private network
 - but some applications need to associate the platform's URL to its IP
 - Configure *coredns* k8s service → solved
 - still need to do some DNS configurations in order to get the authentication working
- Dominique's personal server → VM at LAPP
