## mardi 6 avril 2021

### Poster session 1 (14:05 - 15:30)

-Présidents de session: Samuel Calvet

time	[id] title	presenter
14:05	[12] Latest ATLAS results on measurement of Higgs boson decaying to bb in association with a top-quark pair (ttH H->bb analysis)	KUMARI, Neelam
14:06	[13] EFT interpretation and top-philic heavy resonances in four-top final states	DARME, Luc DARME, Luc
14:07	[14] Top Spin Observables and EFT	TNOURJI, abdellah
14:08	[15] b-jet energy scale calibration using ttbar lepton+jets events in ATLAS	BOUQUET, Romain
14:09	[16] Top mass measurement with alternative methods in ATLAS	DERUE, Frederic
14:10	[17] The impact of dimension 5 operators on top-philic scalar dark matter	MASON, Lara
14:11	[18] Top quark physics at FCCee	ANDREA, jeremy
14:12	[20] CP probes of the Higgs-top interaction	SAIMPERT, Matthias SAIMPERT, Matthias
