

PhysTeV 2021

Emanuele Re, Cédric Delaunay, Diego Guadagnoli, Björn Herrmann

LAPTh Annecy

14 June 2021

Welcome!

What we will miss this year...

*...but we still want to have
interesting discussions...*

...our morale in the last 12 months...

Online program

Schedule:

- **Mon. 14:** “TH progress and open issues in SM predictions”
- **Tue. 15:** “SM predictions: EXP needs and wish-list update”
- **Wed. 16:** “Monte Carlo generators and Parton Showers (TH+EXP)”
- **Thu. 17:** “open discussions” + “Jet substructure and Machine Learning”
- [**Fri. 18:** if needed, time for further discussions]

Format:

- overview talks followed by time for [open discussion](#)
- [Everyone is welcome](#) to suggest ideas for discussions, after the talks, or offline (use “Call for Abstracts” (or send me an email)).
- Discussions already planned for Thursday:
 - M. Muskinja: “*The Associated Production of (Vector) Bosons and a c-quark in proton-proton Collisions*”
 - A. Vicini: “*QCD-EW corrections and the new generation of tools for precision Physics*”
 - B. Nachman: “*ML and unbinned differential cross section measurements: Towards a common format*” [[late afternoon](#)]

Offline discussions

- ▶ slack link: → [Join here](#).
- ▶ if you have registered, all information also sent by email.

Conclusions

- ▶ [Thanks to the conveners](#) for bearing with me, and for their commitment !

Conclusions

- ▶ [Thanks to the conveners](#) for bearing with me, and for their commitment !
- ▶ [Thanks to Fawzi](#) for his continuous support !

Conclusions

- ▶ Thanks to the conveners for bearing with me, and for their commitment !
- ▶ Thanks to Fawzi for his continuous support !
- ▶ Thanks to all of you for registering !

Conclusions

- ▶ Thanks to the conveners for bearing with me, and for their commitment !
- ▶ Thanks to Fawzi for his continuous support !
- ▶ Thanks to all of you for registering !

Enjoy the Workshop!
