

# Journées PNHE 2021

## mercredi 15 septembre 2021

### Gamma-rays (14:30 - 16:30)

-Présidents de session: Fabian Schussler

| time  | [id] title   | presenter           |
|-------|--|---------------------|
| 14:30 | [48] Science with the Cherenkov Telescope Array  | TIBALDO, Luigi      |
| 14:55 | [49] Perspectives de l'astronomie au MeV   | LAURENT, Philippe   |
| 15:20 | [7] Gamma-ray emission from supernova remnants interacting with interstellar clouds                          | BALLET, Jean        |
| 15:40 | [9] Insights into AGN parsec-scale emission from radio to GeV gamma rays from VLBI, Gaia EDR3, and Fermi-LAT | M. PIERRON, Antonin |
| 16:00 | [53] Discussion  |                     |
