

Journées PNHE 2021

jeudi 16 septembre 2021

Dark matter + Multiwavelength studies of BH (14:00 - 15:45)

-Présidents de session: Francesca Calore

time	[id] title	presenter
14:00	[61] Dark matter and signatures in multimessenger astronomy	LAVALLE, Julien
14:25	[12] The dark mass signature in the orbit of S2	HEISSEL, Gernot
14:45	[8] Multi-wavelength search for millisecond pulsars	BERTEAUD, Joanna
15:05	[10] Probing supermassive compact objects properties with space millimeter interferometry	VINCENT, Frederic
15:25	[2] Ultraviolet polarization of quasars: forgotten treasures and future instruments	MARIN, Frédéric
