

Journées de Rencontres Jeunes Chercheurs 2021

October 17th to 23th 2021 at village La Fayette at La Rochelle (17) - France

NOTICE

**To be transmitted to the financial service of
your Institute upon registration**

The “Field and Particles” & “Nuclear” divisions of the French Physics Society (SFP) jointly organize the Journées de Rencontres Jeunes Chercheurs (JRJC) 2021 conference, to be held at the village **La Fayette at La Rochelle (17) – France, from October 17th to 23th, 2021 (week 42).**

The 2021 edition is supported by the CEA-IRFU, the CNRS-IN2P3, the FRIF (Fédération de Recherche Interactions Fondamentales) and the research laboratory IJCLab, CENBG, Subatech, LAPP and LPSC.

This conference aims at gathering young researchers who are in their second or third year of PhD, although first year PhD students as well as young post-doc researchers are also welcome to participate. The JRJC are a very good opportunity for the participants to share their research work and get an overview of the latest research developments achieved in his/her field, within a nice and laid-back environment. A proceeding summarizing the work presented will be produced in the following of this conference week, and publish in a proceeding book of the event on HAL.

Research topics covered by the JRJC 2021 conference are the following: astroparticle physics, nuclear astrophysics, physics beyond standard model, cosmology, theoretical physics, nuclear energy, instrumentation, medical physics, electroweak standard model, neutrinos, hadronic physics, flavor physics, nuclear structure. JRJCs are open to all young researchers, both experimenters and theoreticians!

Presentations can be given either in english or french. The conference social program foresees a half-day trip in the nearby area, as well as one or two public seminars.

In case you are a PhD student and you wish your participation to the JRJC to be formally recognized as a part of your training modules, do not hesitate to contact your PhD school, and keep us informed in case of difficulties.
