GDR-InF

Conveners Meeting
06 September 2021

Aoife Bharucha, Francesco Polci

<http://gdrintensityfrontier.in2p3.fr/>

Budget

- **By mid-September planning of GDR-InF budget 2021 to be finalized** (administrative constraint)
- Needs to know which workshops in 2021 needs money by then. At our knowledge:
 - Annual meeting (travels/hotels/dinners)
 - Lectures on detector tracking (only virtual, so no budget, right?)
- **If anything else, we need to know now.**

Lectures on detectors 1

- Topic: **tracking detectors**
- **Week of November 22**
- **3 slots of 2 hours**
- **Only virtual**
- Lecturers: **Pierre Billoir and Marlon Barbero**

Is all confirmed? If so, we should prepare indico, advertise and open registrations.

Annual meeting

- **Week of November 15 (fix dates. 3 days, with 2 nights, as traditionally?)**
- In presence and virtual: **Paris, LPNHE amphitheatre**
- Indico to be prepared and **registration open this week.**
- **Close registrations early** (end of month). If in doubt of coming or not, better to subscribe and reserve hotel (complicated) and cancel later (budget is refunded).
- Agenda to be discussed today
- Should we extend like last year with a virtual part following the workshop? (consider that the following weeks there are lectures)
- Students and postdocs talks for sure. What else? Invited seminars? Projects? Discussion sessions?
