

GDR-InF annual workshop

mardi 16 novembre 2021

Session III: Leptons - Amphitheatre Charpak (15:40 - 17:40)

-Présidents de session: Olcyr Sumensari; Ana M. Teixeira; Yasmine Amhis

time	[id] title	presenter
15:40	[99] Interplay of hadronic τ decays with potential beyond standard model physics	RODRÍGUEZ SÁNCHEZ, Antonio
16:00	[123] New physics from oscillations at the DUNE near detector, and the role of systematic uncertainties	ROSAURO, Salvador
16:20	[98] Reinterpreting bounds on Heavy Neutral Leptons considering interference effects: the case of LNV and LNC W decays	PIAZZA, Gioacchino
16:40	[122] Feebly-interacting particles and the (g-2) anomaly	DARMÉ, Luc
17:00	[117] Relation among Lepton Flavor Violations	ARDU, Marco
17:20	[97] Search for Muon to Electron Conversion with COMET Experiment at J-PARC	CARLOGANU, Cristina
