

Pregramme des sessions

15-16 nov. 2021

Colloque national CMB-France #2

CMB Spectroscopie

lun. 15 novembre

14:00

CMB Spectroscopie: CMB Spectroscopie

Session | Site: IAP

14:00 – 14:45 **Distortions Spectrales (théorie)**

Orateur

Cyril Pitrou

14:45 – 15:10 **PIXIE**

Orateur

Nabila Aghanim

15:10 – 15:30 **BISOU: a balloon project to measure the CMB spectral distortions**

Orateur

Bruno Maffei

15:30 – 15:50 **Options for an L-class microwave spectroscopy space mission**

Orateur

Jacques Delabrouille

15:50 – 16:20 **café**

16:20 – 16:40 **Sensitivity modeling to CMB spectral distortions**

Orateur

Xavier Coulon

16:40 – 17:00

Forecasts on small-scale primordial non-Gaussianity through cross-correlations between CMB and μ -distortion anisotropies

Orateur

Dr Mathieu Remazeilles

17:00 – 17:20 **Spectral studies of the interstellar dust and CMB millimetre emission**

Orateur

Dr Francois-Xavier Désert

18:00
