

# Life-Science Virtual Community Workshop

**HealthGrid'10  
Paris, June 28<sup>th</sup> 2010**

# Context and scope

- **Context**
  - EGEE is over
  - No formal community coordination for grid applications
  - But a lot of grid-related initiatives in Life-Sciences
- **Do we want collaboration between VOs/projects?**
  - Do we need a EU structure for grid-related Health and LS communities?
  - What would be its role?
  - Who would be the targeted user communities?
  - What would be the supporting infrastructures?
  - How would it be organized?
  - How would it interact with the existing initiatives?
