

IRAP/L2IT mini-symposium sur les ondes gravitationnelles

vendredi 10 décembre 2021

Morning Session: Overview Talks (09:00 - 12:00)

time	[id] title	presenter
09:00	[1] Welcome and introductions	
09:15	[2] Overview of LIGO/Virgo and LISA science	TAMANINI, Nicola
09:40	[3] Multi-messenger & transient sky astronomy	GODET, Olivier
10:05	[4] Future CMB experiments probing primordial GWs	AUMONT, Jonathan MONTIER, Ludovic
10:30	Break	
10:50	[5] EM signal/image analysis	DEVILLE, Yannick
11:15	[6] Gravitational wave data analysis	MARSAT, Sylvain
11:40	[7] Discussion on GW+EM data analysis
