Topaze Bar Nice at 20h00

Thursday: Dinner at *VilleFranche sur Mer*

Observatoire de la Côte D'Azur Mt. Gros

Goals of the workshop

- Meet in person after two years and Welcome new GRANDMA members
- Work to improve the efficiency of operations:
 - Better coordination of observations
 - Rapid detection and photometry of new transients
- Work for the scientific exploitation of our observations (past and future)

Goals of the workshop

- Meet in person after two years and Welcome new GRANDMA members
→ Ongoing work from the teams, tools developed in the different WPs, research results

Yellow sessions, some of you are chairs.

Time	Activity	Chair
15:00	Contributed talks: Introduction to observations	
15:30 - 16:00	NEF, Observatoire de la côte d'Azur	
16:00	Coffee break	
16:00 - 16:30	NEF, Observatoire de la côte d'Azur	
16:30 - 18:30	Contributed Talks: Instrumentation and GW counterparts	Alan Klotz
17:00		
18:00	NEF, Observatoire de la côte d'Azur	
	Social events: Welcome cocktail au Méridien	

Goals of the workshop

- Meet in person after two years and Welcome new GRANDMA members
- ✓ Speed dating meeting

Goals of the workshop

- Meet in person after two years and Welcome new GRANDMA members
- Work to improve the efficiency of operations:
 - Better coordination of observations :
 - ICARE, GW follow-up strategies Tuesday afternoon + Thursday (scenarios)
 - Neutrino strategies Wednesday afternoon
 - Follow-up advocates discussion Tuesday afternoon
 - Rapid detection and photometry of new transients
 - Formal presentation of STDpipe (Sergey) Tuesday 12h
 - Tutorials with MUPHOTEN and STDpipe (Sergey, Thomas), Wednesday
 - Discussions, coding on Thursday led by Sergey, Thomas, Meili, Pierre-Alexandre to analyse the data from the GRB campaign, tutorials & documentation

Goals of the workshop

- Meet in person after two years and Welcome new GRANDMA members
- Work to improve the efficiency of operations:
 - Better coordination of observations
 - Rapid detection and photometry of new transients
- Work for the scientific exploitation of our observations (past and future)
 - Formal presentation of GRB campaign publications (Wednesday 15h20, Jean-Grégoire, Iara)
 - Discussions, coding on Thursday led by Iara and Jean-Grégoire about “how far we go into the analysis” ?
“which analyses” ? Who does what ? Which figures, etc

For more diversity in Research People of GRANDMA

When ? Thursday, all day

Where ? PES, Meili will assist you in the morning and Thomas in the afternoon

How ? 45 s - 1 min

First you should start presenting yourself with your name, role, affiliation and nationality:

Sarah Antier, Astrophysicist at OCA, France

And then answer your question directly in your native language, if you have two, choose one - Send the text of your answer to deugarte@oca.eu

Marc Fulconis
Communication Dep.
Thanks !

What should I wear ?
