WP-G : Towards the scientific exploitation of the Kilonova-Catcher citizen science program

mercredi 1 juin 2022 16:30 (25 minutes)

In this presentation, I will summarize the goals and the current status of the citizen science project Kilonova-Catcher initiated by GRANDMA to conduct follow-up observations of the O4 GW sources. I will then focus my talk on the next development steps needed to reach our scientific requirements/expectations from this program.
