

# Upcoming events

- 12<sup>th</sup> Vienna Conference on Instrumentation, Austria, 15-20 February 2010  
Talk: “Application of Micromegas in hadronic calorimetry”, accepted as a poster
- RD51 Mini week, CERN, 22 – 26 February 2010
- CALICE collaboration meeting, Arlington, USA, 10-12 March 2010  
Talk: Status on Micromegas development at LAPP, **Speaker needed!**  
(Yannis, Ambroise, J-J)?
- International Linear Collider Workshop 2010 (LCWS10 and ILC10), IHEP, Beijing, China, 26-30 March 2010  
Several talks possible: Micromegas R&D, Simulations, Physics
- XIV International Conference On Calorimetry In High Energy Physics (CALOR2010), IHEP, Beijing, China, 10-14 May 2010  
General talk including DHCAL Simulation studies and detector R&D activities, abstract in preparation (Jan)
- 4<sup>th</sup> RD51 collaboration meeting, Freiburg, Germany, 24 – 27 May, 2010  
Micromegas study (Max)?, Electronics (Renaud)?
