

Ateliers action Dark Energy 2022

jeudi 5 mai 2022

Galaxy-halo connection for cosmology - Amphithéâtre Gastaut (RDC) (14:30 - 17:30)

time	[id] title	presenter
14:30	[8] Galaxy formation without cosmic variance: exploring the universe through the Sibelius-Dark simulation	LAVAUX, Guilhem
14:45	[11] A 3-parameter SHAM for BOSS, eBOSS and DESI tracers	YU, Jiayi
15:00	[10] HOD study of emission line galaxies (ELGs) in the Dark Energy Spectroscopic Instrument (DESI) data	ROCHER, Antoine
15:15	[12] LyAI-Net: A high-efficiency Lyman- α forest simulation with neural network	BOONKONGKIRD, Chotipan
15:30	Coffee break	
16:00	Discussion	
17:00	[5] Review	LEAUTHAUD, Alexie
