

Line of sight effects in the past light cone of the horizon-AGN hydrodynamical simulation

jeudi 9 juin 2022 10:40 (40 minutes)

I will present a few original aspects of the small scale properties of the lensing deflection field that arise from the full multiple plane ray-tracing.

Auteur principal: Dr GAVAZZI, Raphael (LAM CNRS)

Orateur: Dr GAVAZZI, Raphael (LAM CNRS)

Classification de Session: Progress in strong-lensing methods and techniques
