

Background Estimation in Fermi Gamma-ray Burst Monitor lightcurves through a Neural Network

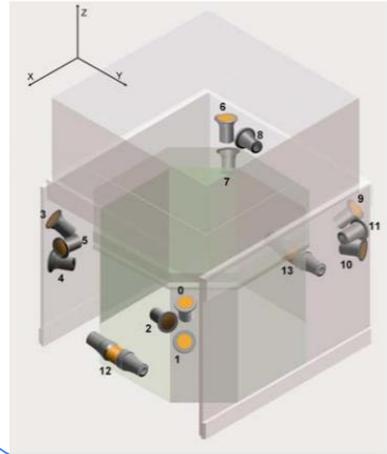

Riccardo Crupi

Fermi GBM

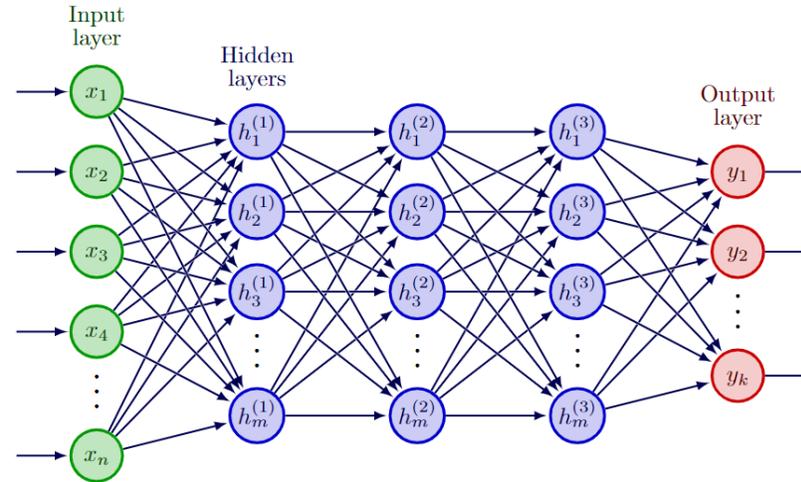

$$X \in \mathbb{R}^{60}$$

- Pos x, y, z
- Lat, Lon, Alt
- Det pointing
- Mcllwain L-parameter
- ...

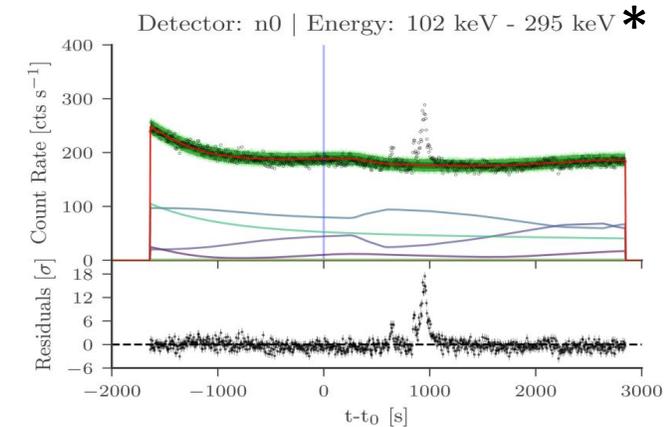

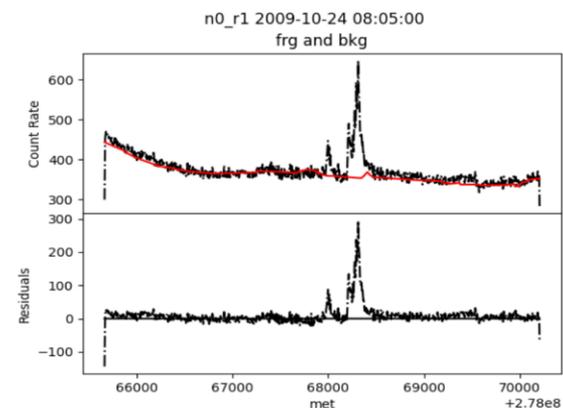

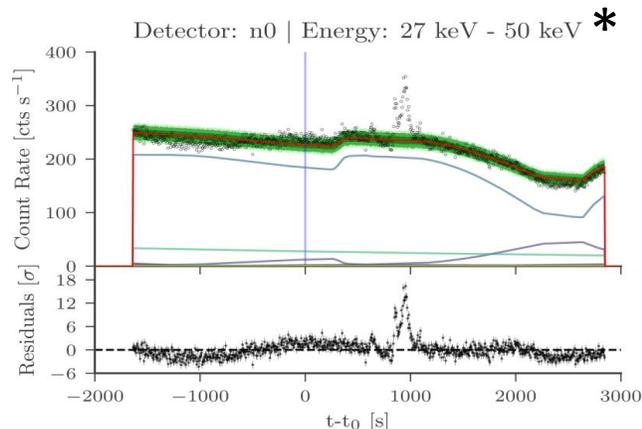

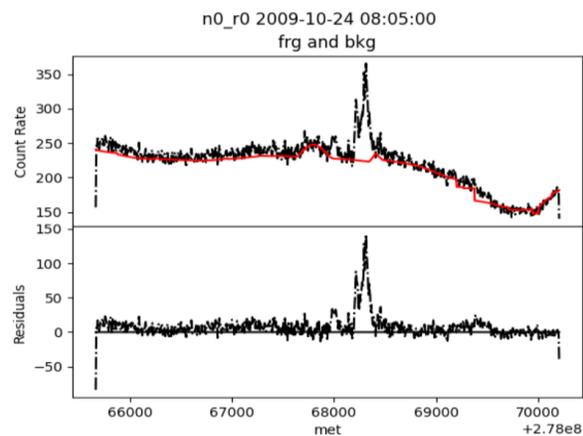

$$Y \in \mathbb{R}^{36}$$

- Det counts range 0
- Det counts range 1
- Det counts range 2

GRB 091024
