Auger and the radio projects, reviews and results - Amphithéâtre Pasteur (09:00 - 12:10)

time	[id] title	presenter
09:00	[10] Recent results of the Pierre Auger Observatory	Dr CREUSOT, Alexandre
09:30	[51] Limits on the diffuse flux of ultra-high energy neutrinos using the Pierre Auger Observatory	Dr PASTOR, Sergio
10:00	[30] Microwave detection of air showers with MIDAS	FACAL SAN LUIS, Pedro
11:00	[42] Radio Detection of Cosmic-Ray-Induced Air Showers at the Pierre Auger Observatory	FLIESCHER, Stefan
11:30	[48] Results from polarization studies of radio signals induced by cosmic rays at the Pierre Auger Observatory	SCHOORLEMMER, Harm
11:50	[57] Self-triggered detection of cosmic ray air showers at Auger with the RAuger experiment.	REVENU, Benoit
