

Strings and Quantum Gravity in the Alps

vendredi 14 octobre 2022

Talk: Julian Sonner - A matrix model for ETH - Petit Amphi (10:00 - 10:45)

Talk: Irene Valenzuela - Where do we live in the string theory landscape? - Petit Amphi (10:45 - 11:30)

Talk: João Penedones - Bootstrapping the a-anomaly in 4d QFTs - Petit Amphi (14:30 - 15:15)

Talk: Henning Samtleben - Kaluza-Klein spectroscopy from exceptional field theory - Petit Amphi (15:15 - 16:00)

Talk: Alexander Zhiboedov - Scattering amplitudes from dispersive iterations - Petit Amphi (16:30 - 17:15)
