

Journées de Rencontres Jeunes Chercheurs 2022

October 23th to 29th 2022 at village club La Rivière, St Jean de Monts - France

NOTICE

To be transmitted to the financial service of
your Institute upon registration

The “Field and Particles” & “Nuclear” divisions of the French Physics Society (SFP) jointly organize the Journées de Rencontres Jeunes Chercheurs (JRJC) 2022 conference, to be held at the village club **La Rivière of St Jean de Monts, close to the sea in Vendée – France, from October 23th to 29th, 2022 (week 43).**

The 2022 edition is supported by the CEA-IRFU, the CNRS-IN2P3, the FRIF (Fédération de Recherche Interactions Fondamentales) and the research laboratory IJCLab, LP2IB, Subatech, LAPP, CPPM and LPSC.

This conference aims at gathering young researchers who are in their second or third year of PhD, although first year PhD students as well as young post-doc researchers are also welcome to participate. The JRJC are a very good opportunity for the participants to share their research work and get an overview of the latest research developments achieved in his/her field, within a nice and laid-back environment. A proceeding summarizing the work presented will be produced in the following of this conference week, and publish in a proceeding book of the event on HAL.

Research topics covered by the JRJC 2022 conference are the following: astroparticle physics, nuclear astrophysics, physics beyond standard model, cosmology, theoretical physics, nuclear energy, instrumentation, medical physics, electroweak standard model, neutrinos, hadronic physics, flavor physics, nuclear structure. JRJCs are open to all young researchers, both experimenters and theoreticians!

Presentations can be given either in english or french. In case you are a PhD student and you wish your participation to the JRJC to be formally recognized as a part of your training modules, do not hesitate to contact your PhD school, and keep us informed in case of difficulties.

The social program includes an afternoon excursion in the region with visit & tasting at an oyster farm, an enhanced dinner and dance party one of the evenings. In addition, a guest speaker will come for a 2h intervention on the subject of PhD student mental health.
