## DISTINGUISH FSC.SVOM.ORG|EU

- How to distinguish fsc.svom.org and fsc.svo.eu websites Svom / FSC logos
  - We added (thanks @mbocquier) a warning pop-up to all fsc.svom.org website
  - It could be deactivated if everybody implements something that stands out to make sure people know they're on the dev site
    - Pop-up ?
    - Different logo ? (could be handled automatically for everybody if the logo is taken as an href from the fsc.svom.[org|eu])
    - Different navbar color ?
