

# IRN Terascale @ Nantes

## mardi 18 octobre 2022

### Methods and Tools (09:00 - 10:45)

time	[id] title	presenter
09:00	[18] Signal region combination with full and simplified likelihoods in MadAnalysis 5	KRAML, Sabine KRAML, Sabine
09:35	[15] Improved constraints on supersymmetric scenarios using SModelS analysis combination	PASCAL, Timothee
10:10	[14] Standard Model Effective Field Theory - Comparing electroweak input schemes at next-to-leading order	BIEKOETTER, Anke

### Methods and Tools (11:15 - 12:30)

time	[id] title	presenter
11:15	[16] PDF uncertainties for BSM searches	FORTE, Stefano
11:50	[17] Hardware acceleration within MG5aMC	MATTELAER, Olivier
