

News from CPPM

- ❑ Contact person: F. Dj. replaces Steve Muanza.
- ❑ Two possible contribution to R&D effort:
 - Pixel vertex detector:
 - Pixel R&D on going since years at CPPM
 - Very structured: DICE, RD53, ECFA roadmap
 - Existing collaboration with IPHC
 - Liquid Argon calorimetry:
 - Very important contribution to ATLAS calorimeter
 - Involved in HL-LHC electronics upgrade
 - First interests expressed
- ❑ Physics studies:
 - Not yet chosen. My own interest is in Higgs self-coupling, but let me discuss with ATLAS/CPPM colleagues.
