

# French Strings Meeting 2023

**mardi 23 mai 2023**

**Talk: Valentin Reys - Recent advances in precision holography - Chair: Boris Pioline - Auditorium (16:00 - 16:30)**

**Talk: Alexander Tumanov - Integrability and form factors - Chair: Boris Pioline - Auditorium (16:30 - 17:00)**

# mercredi 24 mai 2023

**Talk: George Tringas - On/off scale separation - Chair: Xavier Bekaert - Auditorium (11:15 - 11:45)**

**Talk: Nafiz Ishtiaque - The 4d Chern-Simons perspective of integrability in gauge theories - Chair: Xavier Bekaert - Auditorium (11:45 - 12:15)**

**Talk: Nejc Ceplak - The Correspondence Between Rotating Black Holes and Fundamental Strings - Chair: Benjamin Basso - Auditorium (14:00 - 14:30)**

**Talk: Paul Marconnet - Universal accelerating cosmologies from 10d supergravity - Chair: Benjamin Basso - Auditorium (14:30 - 15:00)**

**Talk: Sucheta Majumdar - Residual gauge symmetries in the front form - Chair: Benjamin Basso - Auditorium (15:00 - 15:30)**

**Talk: Mikel Sanchez-Garitaonandia - Large D holographic collisions - Chair: Guillaume Bossard - Auditorium (16:15 - 16:45)**

**Talk: Blagoje Oblak - Gyroscopic Memory Effects in Gravity and Electrodynamics - Chair: Guillaume Bossard - Auditorium (16:45 - 17:15)**

## **jeudi 25 mai 2023**

**Talk: Taro Kimura - Branes and vertex operators in eight dimensions - Chair: Ruben Minasian - Auditorium (11:00 - 11:30)**

**Talk: Yegor Goncharov - Ambient-space variational calculus for gauge fields on constant-curvature spacetimes - Chair: Ruben Minasian - Auditorium (11:30 - 12:00)**

**Talk: Bruno Le Floch - BPS Dendroscopy on Local P2 - Chair: Ruben Minasian - Auditorium (12:00 - 12:30)**
