

## SKA, SKA-France and the PNHE

*mercredi 6 septembre 2023 18:05 (15 minutes)*

The Square Kilometer Array - SKA - will be the major radio telescope of the 21st century. After a presentation of the instrument and its scientific objectives, with particular emphasis on the objectives of the PNHE, I will present the institutional structure SKA-France, its role and its objectives, in order to contribute to the prospective exercise of the PNHE.

**Orateur:** ZARKA, Philippe (LESIA, CNRS - Observatoire de Paris - PSL)

**Classification de Session:** Nouveaux moyens d'observation (IXPE, GRAVITY+, CTA, SKA, LISA, NewAthena, SVOM, KM3Net...)
