# OSSR curation – for curators

- get acquainted with OSSR policy
- You have been assigned or have self-assigned a record review
- <https://gitlab.in2p3.fr/escape2020/wp3/ossr-curation>  
go to [merge-requests](#)
- Check the checklist
  - If something needs to be addressed, comment in the merge request and contact the authors
  - If a new version of the record has been published, you validate again the record using the eossr validator:  
[https://escape2020.pages.in2p3.fr/wp3/ossr-pages/page/tools/codemeta\\_validator/](https://escape2020.pages.in2p3.fr/wp3/ossr-pages/page/tools/codemeta_validator/)
    - See demo
- Complete the issue in redmine
- Approve in the merge request
- Resolve conflicts if needed for the curation database
- Ping me @vuillaume in the merge request (I should see the approval automatically but it won't hurt)
