## Roya Mohayaee (IAP): Testing the cosmological principle with distant sources

*mercredi 11 octobre 2023 14:30 (30 minutes)*

The cosmological principle states that the Universe is statistically homogeneous and isotropic on large scales. I briefly discuss how the high redshift radio sources and quasars can be used to verify or falsify this principle, at the foundation of modern cosmology

**Orateur:** MOHAYAEE, Roya (Institut d'Astrophysique de Paris/Sorbonne université)
