A personal selection of Jean-Loup Gervais's best papers

mercredi 5 juillet 2023 14:45 (30 minutes)

I have selected 14 of his papers essentially on various aspects of quantum field theories among his most influential ones and/or which I find most intriguing and interesting.

This will come with a few personal anecdotes on the genesis of some of them and the scientific environment of that time as I remember it..

Orateur: NEVEU, André

Classification de Session: Jean-Loup Gervais memorial session
