

# No tension on $S_8$ ?

A. Blanchard, J.-Y. Héloret, B. Lamine, S. Ilić, I. Tutusaus  
(ArXiv: 2205.05017)

Annecy, November 6th, 2023

The amplitude of matter fluctuations tension, i.e.  $S_8$  tension.

Definition :

$$S_8 = \sigma_8 \left( \frac{\Omega_m}{0.3} \right)^{1/2} \quad (1)$$

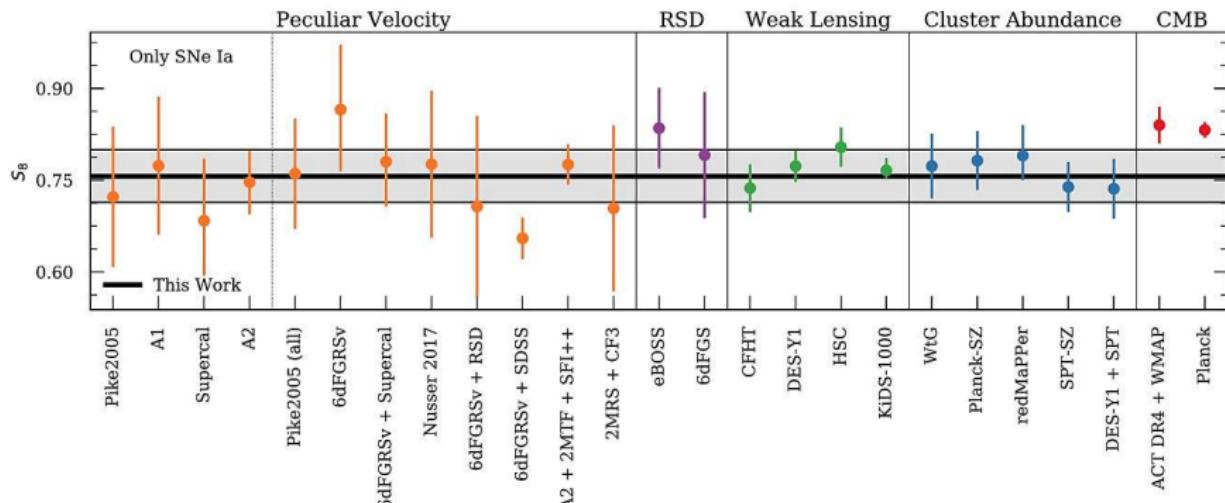

The amplitude of matter fluctuations tension, i.e.  $S_8$  tension.

Definition :

$$S_8 = \sigma_8 \left( \frac{\Omega_m}{0.3} \right)^{1/2} \quad (1)$$

Well adapted for clusters and weak lensing.

# The amplitude of matter fluctuations tension, i.e. $S_8$ tension.

Stahl et al. (2021)

# Which measures constrain $\sigma_8$ (at $z \sim 0$ )?

# Which measures constrain $\sigma_8$ (at $z \sim 0$ )?

- weak lensing

# Which measures constrain $\sigma_8$ (at $z \sim 0$ )?
