Beginning of individual work

mercredi 5 avril 2023 16:00 (20 minutes)

Participants will be presented with a list of wikipedia biographies that need improvements. Each participant will pick the biography that they prefer and will start searching for references and doing minor edits. For this, every participant will need a wiki-editor account and a laptop. You can write in the language that you feel most comfortable with. We will ask participants to sign up to Wikipedia and make sure they use their laptop during the entire event.
