

Assemblée Générale 2023 du GDR QCD

jeudi 28 septembre 2023

Thursday afternoon - Amphithéâtre Grünewald (bât. 25) (14:00 - 16:05)

time	[id] title	presenter
14:00	[15] Resolving b-jet substructure by aggregating b-hadron decay products	KALIPOLITI, Lida
14:25	[16] Measurement of isolated photon spectrum and photon-hadron correlations in Pb-Pb collisions with the ALICE experiment	ARATA, Carolina
14:50	[17] Study of charmonia production in pp collisions with the ALICE detector	BIZÉ, Nicolas
15:15	[30] Quarkonium quests with high-energy inclusive and exclusive productions	FLETT, Christopher Alexander
15:40	[33] Computing heavy quarkonium production cross sections at high energy with the matching between collinear and high-energy factorisations	NEFEDOV, Maksim
