

LPNHE-Neutrino: T2K

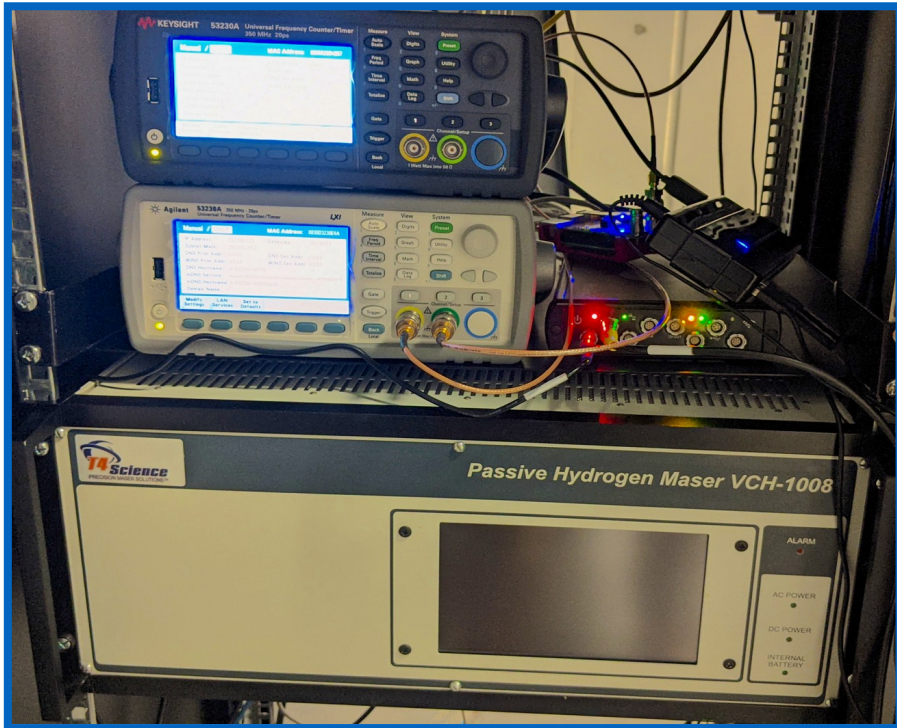

- First half of the HA-TPC for ND280-upgrade assembled at CERN. Cosmic tracks seen. Stable operation for a couple of weeks.

Paper on “Analysis of test beam data taken with a prototype of TPC with resistive Micromegas for the T2K Near Detector upgrade” (corresponding author Vlada Yevarouskaya) published in NIM A 1052 (2023) 168248

LPNHE-Neutrino: Hyper-K

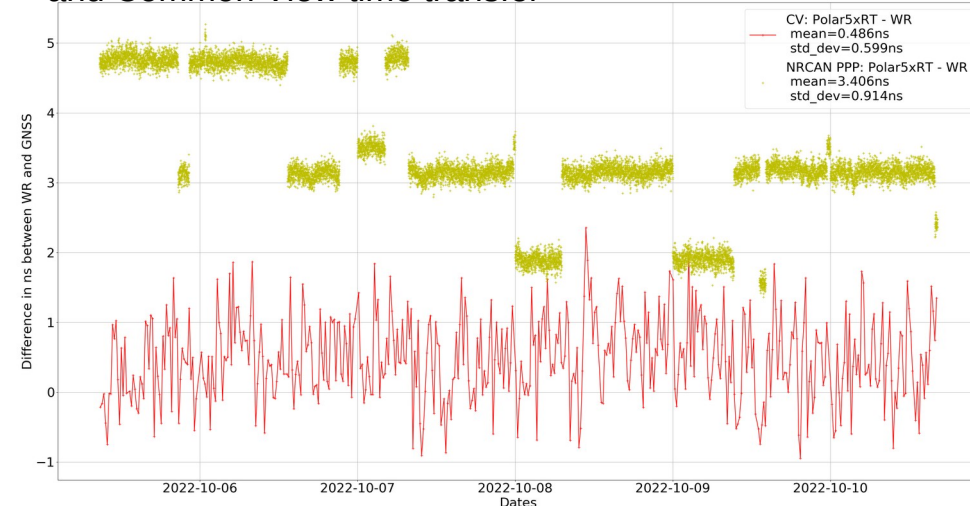

- R&D for the HK timing system is nearly finalized. Project approved by IN2P3 and HK.

Equipment installed at LPNHE

Difference (in ns) between White Rabbit signal from SYRTE and Common View time transfer
