

EMIRUM 2023

jeudi 14 décembre 2023

User's: IBA / Microstructure - Guest house (14:00 - 15:35)

-Présidents de session: Julien Colaux

time	[id] title	presenter
14:00	[9] Combining Ion Beam Analysis and Artificial Intelligence: a route to high throughput material screening	KHODJA, Hicham
14:30	[10] Influence of flux on loop nature in nickel during ion irradiation	LEFORT, Lisa
14:45	[11] Revealing the role of oxygen on the microstructure of electron-irradiated tungsten: A combined experimental and simulation study	HU, Zhiwei
15:05	[12] Influence of the microstructure of additively manufactured Ni20Cr microstructure on aging under irradiation	DUJARRIER, Alexis
15:20	[13] Clarifying phase instabilities induced by irradiation in a FCC-based FeNiCrMn HEA	DARTOIS, Antoine
