

# IRN Terascale @ Marseille, Luminy

## jeudi 26 octobre 2023

### Higgs - Amphitheater Hexagone/CPM (13:45 - 15:25)

| time  | [id] title   | presenter        |
|-------|--|------------------|
| 13:45 | [31] Exotic Higgs decays: Present Status and Future Prospects at the LHC | ADHIKARY, Amit   |
| 14:10 | [27] Review of Vector Boson Scattering analyses                          | KOLETSOU, Iro    |
| 14:35 | [28] Polarized WZ production observation by ATLAS                        | SELEM, Luka      |
| 15:00 | [29] HH->bbyy search with ATLAS  | PETIT, Elisabeth |

### Higgs - Amphitheater Hexagone/CPM (15:55 - 17:25)

| time  | [id] title  | presenter         |
|-------|---|-------------------|
| 15:55 | [32] Measurement of Higgs mass in $H \rightarrow \gamma\gamma$ with ATLAS             | GUO, Linghua      |
| 16:20 | [30] Evidence for $H \rightarrow Z\gamma$ in the combination of ATLAS and CMS results | GILBERT, Andrew   |
| 16:45 | [26] Additional Higgs Bosons near 95 and 650 GeV in the NMSSM                         | ELLWANGER, Ulrich |
